

CQC

We are registering a dental service to provide the following regulated activities:

- Treatment of disease, disorder or injury
- Surgical procedures
- Diagnostic and screening procedures

Statement of purpose

Aim: To improve education, improve health and reduce health inequalities

Objectives: The company will provide a range of services such as teaching, training and research, community engagement, workshops, education about oral health and related activities for local communities. These activities will contribute to the delivery of the dental service.
