Introduction

This report details the results of the patient satisfaction survey that took place between 1st August 2020 – 31st July 2021.

Visiting patients were encouraged to complete a questionnaire capturing their recent experience at each of the four Dental Education Facilities (DEFs). Over a 1 year period, patients completed 799 individual surveys across Derriford, Devonport, Exeter and Truro DEFs.

The feedback has been collected by the iPad located in the reception area of each site and incorporates the standard Family and Friends Test Question “*How likely are you to recommend the Peninsula Dental Social Enterprise to your friends and family if they needed similar care or treatment?*” The results from the survey responses have been collated and have been presented in both organisational and localised formats. Patients had the option to skip questions and these results are included in the figures. Results have been expressed as a rounded percentage.

Summary

Overall, 98% of respondents answered that they would recommend PDSE to friends and family if they needed similar care or treatment, with 97% of participants rating the service they received at the Peninsula Dental School as either excellent or good.

Overall patient participation has been lower than in previous years due to the varied level of restrictions in place throughout the COVID-19 pandemic, resulting in feedback collection not always being viable.
